

Carroll County High School  
Board Report  
January 24, 2013

We have had a good start back after the New Year. The NAS Tournament went well. Boys and Girls Basketball are still going strong. Our Academic Team will be participating in District Governor's Cup Competition. We will host that tournament here this year.

Due to recent events, we have made sure to evaluate our own Safety Procedures. We have re-examined last year's safety audit. We have also held a Lock Down drill to see any areas of concern.

Currently our big initiative is "Gold Schedule." The Gold Schedule is an adjustment to the school day that still allows all classes to meet, but includes time for a "Zero Hour" or "Gold Block." During Gold Block students will receive either interventions or enrichment activities. The idea to add interventions is to add more interventions for those students that need more help. During this time we will offer enrichment activities to those students who are meeting our benchmarks. Some of the enrichment activities include classes such as Cooking as well as ACT Test Preparation.

#### Student Data

Students are currently working on MAP testing and when completed we will be able to compare the recent scores with their scores from the round of testing done in the fall.

Current enrollment stands at 530 students.

#### Upcoming Events:

JAN 18	Academic Pep Rally
