

We have installed magnetic door locks at the Alternative School buildings. Any problems with door locks or security issues have been addressed throughout the district. Our manlift is back in use after OSHA inspection and repair for safety. The annual document shredding has been finished for the year. Several bulbs have been replaced in our High School gym. Step pads have been installed on the steps going to the locker rooms at High School and we will be painting the floors with epoxy clear coat soon. A new light had to be ordered for the parking lot at High School and will take a few weeks for delivery. Several minor issues have been addressed at the Area Technology Center. A motor was replaced in the ramp area of Middle School in the heat unit. All exit lights have been checked and addressed accordingly in the district. We have replaced light bulbs and ballasts on the bus lane at Middle School. All work orders are addressed daily as needed.

Thank You for Your support,

Dwayne A. Smith
