

The new lights are installed in the High School gym. We have moved an incredible amount of SNOW! The new snow blower purchased has already paid for itself in man hours. Through the cold we have only had a few freeze ups and no major problems from them, except for or did I mention the SNOW. We address all work orders as they arrive which is too many to list, but things are running quite well and constantly improving..... Don't forget all the SNOW! Hopefully now in our past.

Thank You for Your Support,

Dwayne A. Smith
