

TECHNOLOGY BOARD REPORT

MARCH, 2014

Tickets

- ⇒ We closed 227 tickets between February 19th and March 19th.

KySTE

6 people from Carroll County attended the KySTE conference. It is an educational technology conference for educators and technical staff working in Kentucky schools.

- ⇒ Joe Bliton attended to improve his skills on managing iPads in the district. He also went to one-to-one management sessions.
- ⇒ Zach Dean attended the technical sessions that are focused on state changes in the network and ways to improve our network. He also shared his expertise on deploying images to the Mac with DeployStudio. He had 28 attend his session. He did an excellent job.
- ⇒ Cindy Johann attended state required sessions for CIO's/DTC's and sessions on how to successfully "Flip" a classroom and how to build personal learning networks.
- ⇒ Elizabeth Patton, Sijean Hill and Christie Jones attended to grow their knowledge in the integration of technology to share with their staff.

Preparations in the making:

- ⇒ Comparing different software applications for filtering, viewing screens, Mobile management, and classroom management to determine the best resources for our money.
- ⇒ Meeting with the project manager of our Fiber installation to set up a timeline.

Tuesday Tech Tools for Teachers:

The tech department has started a short PD session every Tuesday for teachers. Katie Riley was the first teacher to volunteer to share resources she gathered from a PD on Smashing Apps. 10 teachers attended her presentation from 3 different schools. She did a great job. Sijean Hill will lead our next PD session on applications she gathered from KySTE. Our goal is to become students for a brief period of time and learn about exciting new software and hardware solutions.
