

1. Brianna Miller and Josh Grooms of CCHS will accompany me to visit Henry County High School this month. We will be observing a weekly check in with students at risk. Staff meet with students who struggle with grades, behavior, and attendance to encourage them to do well. We are observing in order to see if it will help with our ICU program.
2. The special education and general education teachers will be meeting within school groups to determine next steps for co-teaching. We will be evaluating practice from this year and determine ways to proceed for next year.
3. I will be attending the End of Year training at Butler State Park Tuesday, April 21. The training reviews how to complete the state reports that are due in June.
