

Carroll County High School
Board Report
October 22, 2015

We are just finishing our first grading period. With the ICU (Every student, Every assignment) there will be fewer failing grades. However, students that have not turned in all of their assignments will be receiving an "I" or Incomplete on their report cards until all the work is turned in to a proficient level. Parents have been notified of this change, but since it is something new it may still be confusing for some. Students will be expected to complete the incomplete work and then the I will be changed to the grade they have earned.

Students are already receiving acceptance letters from colleges. We have also taken students on several College visits. The Early College Program is going well. We even had students attending JCTC classes over our Fall Break.

We had Homecoming Week and the many activities that are part of those festivities. We also had several groups from the school participate in the Two Rivers Tobacco Festival including having booths and being in the parade.

Boy's Soccer won the District Tournament. The team has had a very good season. Volleyball has competed well and will be playing in their District Tournament. Football still has two home games remaining. We are hoping for great football weather so we can have some large crowds to enjoy the new facility. Many people are commenting very positively on the new facility. The gym floor has been cleaned and coated for the upcoming season and basketball tryouts are happening soon.

Carroll County Hospital held a Health Fair for our students at our Conditioning Center. Students visited with representatives from the hospital, Sheriff's department, Champions and many other groups.

Project Lead the Way Bio-med and Engineering are have many activities. The Bio-med students have made field trips to area medical facilities to get real world exposure to their field. Engineering students are working on Robotic projects and house design.

Upcoming Events:

| | |
