

Carroll County High School  
Board Report  
October 26, 2017

It is the end of the first quarter. Our Parent Night is on October 25. Report Card distribution will be during the night and parents are encouraged to meet with the teachers. If longer meetings are needed parents are encouraged to schedule those for a future time. Tables will be in the lobby presenting information on items of interest such as parents learning to log onto Infinite Campus and Schoology, Career and Technical learning opportunities and parent involvement opportunities.

We have had many activities happening at the high school. We have restarted our YClub which will allow students to participate in KYA and KUNA. The agriculture program is making improvements in the greenhouse and has an aquaponics system including a tank with fish. In November we will be having a Health Fair. We recently held a FAFSA (financial aid) night.

The Fall sports are winding down for the season. Most have had their "Senior Nights" and have already participated in the end of year tournaments. Boys Soccer won the District Championship for the sixth year in a row. Football still has some games remaining including one more home game. Basketball has begun practicing and will have games soon. The Band has held a Fall Performance. This is the first time in a long time that there has been a concert this early. The band also performed with the University of Kentucky's band during half time of a Wildcat's football games. The band will also be performing October 21<sup>st</sup> at Kings Island.
