

## 2017 October Board Report

---

### CCHS Student Tickets and District Help Desk Tickets

We have closed 320 district help desk tickets in the past month. We have closed 160 student help desk tickets in the past month.

---

### Another State Upgrade

KDE will double our bandwidth to the internet from 500Mb to 1Gb in November. To give the board perspective, when I came to the district 12.5 years ago, we had a 10Mb connection!

---

### Networking Equipment

We have E-Rate funded switches and access points for the schools. We are coordinating with Extreme on when to install the equipment. It is replacing equipment that is no longer covered under warranty.

---

### WiFi Upgraded

- Carroll County Area Technology Center has been upgraded to the newest controller software and newer access points.
- iLead Academy received 2 new access points for its growth into the other building.
- Andrew installed an outdoor access point at CCMS along with 4 newer access points were installed inside the building.
- Andrew had to run wire for an extra AP at CCHS and one at Cartmell.

All of this equipment is to provide a better end user experience for our staff and students and the growing mobile devices in the district.

---

### Kudos

All but 59 CCMS students have completed their Digital Driver's license. Every day I get an email from a few students that have completed the 3 required cases. Kudos to the teachers for understanding the importance of Digital Citizenship.
