

June Board Report
School Nutrition Department
June 14, 2018

Even though students were gone, the week after, the kitchens are still very busy. The women were doing their end of the year duties and cleaning. They are also getting things packed up and stored away for the summer. Another school year is in the books!

Staci and I are also completing our end of year responsibilities and jumping right into preparing for the next school year. I've actually been in that mode for a few months. The NSLP renewal application from the SCN in Frankfort is now open. I am currently working on the application process. I will be submitting it soon.

Summer Feeding started on June 12 at the High School and at the CCCDC. We will be feeding both breakfast and lunch for eight students at the CCCDC for nine days. We will also be doing summer feeding (breakfast only) at the High School June 12 - June 29. Theresa Walker is overseeing the summer feeding at the High School and Monica Meadows is managing the Kathryn Winn kitchen.

I have recently hired, Sheila O'Neal, for a 6-hour Cook/Baker position at Kathryn Winn. She is very excited to join the team and can't wait to see the kids! I'm sure she is going to be an asset.

I have two 6-hour positions open at this time. One at the High School, replacing Jama Stout. Jama is moving to the Middle School, filling Joanie Day's position. I also have an opening for a 6-hour position at Kathryn Winn. We are currently taking applications for both positions.

I attended the annual KSNA Conference, which was held in Louisville at the Crowne Plaza hotel. The conference kicked off on Sunday, June 10 and continued through Wednesday, June 13. I took classes and trainings on various topics throughout the conference. They always have interesting guest speakers for the general sessions and they didn't disappoint this year. These add both humor and good information to take away. This is a very informative conference. It carries a lot of opportunity to network, share ideas, learn as well as receive continuing education units for the School Nutrition Association membership. I really look forward to this conference every year.

We will also had our monthly OVEC meeting at the conference as well. We are planning our regional training and workshop to be held on July 26 at Henry County. I am involved in the planning and developing for this training.

Thanks again for your continued support of this program.

Respectfully,
Lisa Gault
School Nutrition Director
