

School Nutrition Department  
Board Report  
May 15, 2019

The annual Rotary Academic Banquet was held at the High School cafeteria on Wednesday, May 1. It was a huge success. Ashlie Arvin, manager of the High School kitchen and four other staff members Victoria Wood, Tiffany Harvey, both part of the High School staff along with Rita Damrell and Joyce Hoskins from the Cartmell kitchen. These women did an outstanding job! There were many compliments handed about this year's dinner. Everyone said it was delicious and the presentation was amazing!

The annual Rotary Pancake Breakfast was held Saturday, May 11. This event also took place at the High School. Ashlie Arvin offered to oversee the kitchen for this event and to help the Rotary this year. I understand things went very well and they thoroughly enjoyed themselves working together for such a great cause. Hats off to Ashlie and the Rotary! I wish to extend a very sincere "thank you, job well done" to Ashlie for giving up her very early Saturday morning to help with this event. She was there at 5 am to get this set up and ready to roll. I did speak to Jeff Moore about the possibility of moving this to the weekend following Mother's Day. I explained the difficulty of scheduling someone to work that day considering that the staff is all women who are mothers and have busy plans for that weekend. He said that they would consider that for next year.

I will be attending my monthly OVEC meeting this Friday, May 17. We will be discussing all types of bid information at this meeting. We will also have a presentation from Manning Brothers Food Service Equipment and Supplies on this month's agenda.

As requested by Jon Conrad, the High School has ordered the juice, milk, and water for the Closing Day Breakfast event. The Board office is handling all other arrangements for the morning this year. We are expecting a wonderful change of pace with catering provided by Chick-Fil-A this year. Closing Day will be at the Carroll County High School.

Thanks again, for your continued support of this program.

Respectfully,  
Lisa Gault  
School Nutrition Director
