

Approval of Gifted Education Instructor additional days

Our Elementary Gifted Education Instructor was contracted to work 50 days this school year paid from Title I funds. She used her 50 days to work with GT students but there are many end of the year items left to do such as cleaning up Infinite Campus records, entering data, end of the year GT reports and planning summer opportunities for our GT students. 10 additional days are needed to accomplish these tasks.

The recommendation is to approve 10 additional days for the Elementary Gifted Education Teacher. This will be paid out of Title I funds.
