

Approval of Athletic Trainer Request

In July of 2019 Baptist Hospital notified Athletic Director Paul Stone that they would no longer be providing an athletic trainer in our current partnership. Since that time, Coach Stone has been working with several different hospitals and medical groups to develop a new partnership. Due to a variety of factors, including lack of referrals, a new partnership has not been formed. Due to the importance of providing this service to our students, it the recommendation of Coach Stone that we create a District Athletic Trainer position for Carroll County Schools without a partnership. This position would be a salaried, classified position paid in salary table CL29. It would consist of 220 days serving Carroll County High School and Carroll County Middle School. This position would be funded by the General Fund and would be supervised by Mr. Mark Willhoite (COO) and Paul Stone.

Please see the job description and salary table that is attached.
