

## *Approval of October Surplus*

Throughout the summer and the beginning of the school year, we have collected broken equipment from all buildings to surplus. We will again use Green Wave Recycling. We chose this company because they do not charge to take computer monitors and they pay for the used equipment. Over the years, they are the easiest to deal with, they don't require us to put equipment on pallets nor wrap them. They are always prompt about the money they give the district.
