

**EQUIPMENT ADDENDUM  
DATASEAM SCIENCE AND DESIGN LAB AGREEMENT  
Carroll County Schools  
September 27, 2019**

This Addendum is executed by mutual agreement of the Parties to the Dataseam Science and Design Lab Agreement executed between Dataseam and the Carroll County School District September \_\_\_\_, 2019.

WHEREAS, the School District has submitted a workstation placement narrative and has been approved to receive additional computer workstations. The School District understands and agrees that these computer workstations are provided with the same terms, obligations and other restrictions described in the Dataseam Science and Design Lab Agreement.

The School District further agrees to fulfill the obligations set forth below, which include but are not limited to:

1. Zachary Morris-Dean to attend the OSX 10.14 Mojave Support and Mac Deployment and Management in KY Schools and pass the exams, at district expense (by December 31, 2019).
2. Work to coordinate additional Dataseam partnership activities, subject to lab availability.

Dataseam agrees to:

1. Dataseam agrees to provide (25) educational iMac workstations for completion of obligations by Zachary Morris-Dean.

Obligations in this document must be completed to remain in good standing in the Dataseam program. Specific awards may reflect additional district involvement with Dataseam, state-funding conditions, or long-term district plans not outlined in this document. Workstations received per addendum will access network from a dedicated Ethernet drop and not connect to district network via a hub or other non-approved KETS network devices. Wireless network connection is not acceptable for Dataseam workstations. Workstations received per addendum will be installed, imaged and operational for research and student use within 30 days of receipt.

Dataseam	Date	District Representative	Date	

Offer good for 30 days from 09/27/19
