

Approval for Carroll County Child Development Center to pay a quarter of funds plus stipend to Cartmell Food Service

CCCDC is proposing to pay for 1/4 of a Cartmell food service staff member and providing the kitchen manager a \$400 supplement for providing a total of 22 breakfast and lunches per day for the children and adults in the modular. The supplement is for the additional reporting responsibility that manager will take on as a result of this. Cartmell kitchen will prepare 16 student meals and 6 adult meals, daily for breakfast and lunch for the enrolled children at the Modular location on the High School campus. This change will ensure that the food is hot & fresh and will not have to be transported a mile away in a vehicle. The menus are the same so there will not have to be adjustments made. The \$400 stipend for the kitchen manager and 1/4 of the food service employee will be coming from the CRRSA sustainment checks.
