Good Things Happen When You Narrow Your Focus

Back to School:

Other than the obstacles from Covid/Sickness, we had a very smooth return to school. Our staff is amazing and they are working hard for students every single day. I hope we can keep the virus under control and continue with in-person learning for the entire school year. Our students need it and deserve it!

Evaluation and Professional Development System:

We have worked hard to complete all of the configuration in the Frontline platform to get started with our online evaluation and professional development tracking system. All employees are now entered and evaluation forms have been assigned. We will be working with principals to guide them on how to use this new system.

Accountability Data:

We have received our initial assessment data from last spring but it is embargoed until public release. We will share these results with you when we are allowed to do so.

Distance Learning Option:

We are in the process of refining our distance learning option to be prepared in the event that we can't do in-person learning. We are clearly defining expectations for implementation and monitoring. We are also looking into options for students who can't attend school due to being quarantined.
