**Project Abstract:**

**Title:** Digital Art

*Level of Funding:* Faculty Level - \$2, 000

*Summary:* The iPad is at the forefront of becoming the most innovative and dynamic tool in art education. It can enable students to create and share digital content and media focusing on art and cross-curricular learning. Students can explore drawing and painting, digital photography, critique, animation, graphic design, and more through the various apps that are offered in the Apple store. It is important for students to learn how to create digitally using 21st century technology in order to succeed in the future.

<b>Goal 1 – To increase student engagement and efficiency in classes.</b>	
<b>Objectives for Goal #1</b>	
1	To increase creativity opportunities of our students.
<b>Outcomes for Goal #1</b>	
1	Student engagement and achievement will increase.
<b>Goal 2 – To increase student STLP participation and success</b>	
<b>Objectives for Goal #2</b>	
2	Increase the number of students participating in the digital art category for state STLP.
<b>Outcomes for Goal #2</b>	
2	State qualifier for STLP competition.

**Statement of Need:**

Digital art is not here to compete with traditional painting and drawing on the canvas. Digital art is another medium to express creativity. However, with digital art there are apps in development that can let you smell the paint colors, which takes art to another

level, for example. Furthermore, many job opportunities exist on the frontier of art and technology.

**Program Description:**

A \$2, 000 grant from the R.C. Durr Foundation will allow Carroll County High School to purchase two ipads and two apple pencils.

2 iPad Pro 900 each = 1800.00

2 Apple pencils at \$100 each = \$200.00

Total = \$2000.00

**Evaluation:**

The evaluation of the Ipads and pencils will rest on the following evaluation tools:

1. *Technology Teacher Reflections and Reports* – The technology teachers will issue a report to the R.C. Durr Foundation no later than Dec. 31, 2021, that provides samples of digital art products.
2. *Student Competitions* – Higher scores in the Digital Art category at STLP state competition.
