

SEPTEMBER 2021

CC Technology Dept. Board Report

Tech Tickets

Between August 14th & Sept. 13th, the technology department resolved 442 tech-related concerns.

Software/Hardware

Screenastify was renewed for all district staff members. Screenastify makes it easy to record, edit, and share videos of your computer screen. Recordings can easily be shared via email, embedding code, YouTube, Google Classroom, and more.

District staff members were also reminded that our Nearpod subscription has been renewed for the upcoming school year. Nearpod is a tool for creating and delivering interactive presentations, formative or summative assessments, and content related to SEL, digital citizenship, vocabulary, social justice, and more.

Clevertouch panels have an ETA of late September/early October. They have left port in China. Installation will promptly begin upon arrival.

Collaboration/Communication

Carroll County Technology Department hosted the monthly Region 4 meeting on September 17th. Charlotte Chowning presented pertinent monthly tech-related content for the district/state.

Robin Stephenson attended an in-person District Technology Coordinator meeting (hosted by Laura Raganas-KDE) in Oldham County on September 10th. She also attended Larisa's Leaps first STLP meeting at CCMS on 9/9.

Jack Harrod has been leading weekly tech team meetings. A review of completed versus uncompleted tickets has been conducted weekly. Jack effectively and continuously monitors ticket statuses.

Next month, on October 15th, Carroll County will host the Northern Kentucky Technology Vendor Fair at the CCHS gymnasium. All major technology companies will be attending and presenting their products/services to Region 4 attendees from:

Anchorage
Beechwood
Bellevue
Boone
Bullitt
Campbell
Covington
Dayton Ind.
