2. Superintendent's Report

- Environmental Learning Educational Observation Tool Training: We had members from KDE come in to observe classes in each school and look at the learning environments. The teams consisting of about five team members observed classes across the district to look at how the students were learning, if the students are engaged during learning, and what the students are learning. It looks at equitable learning for all and high expectations for the students. Are the students getting to the learning level that they need to for state. They will collect the data and KDE will send that data to us, and that information will be shared with the staff. Our hopes are to take this information and take it to each team for them to use for feedback. This will allow us to develop next steps on what we need to keep and what we need to change to ensure that all students are getting the rigor that they need to continue on the correct path for college and career readiness.
- YCC: Youth Career Connect Grant, redefining what we're doing to improve engineering, manufacturing, and careers to provide more choices within our community to support careers. This grant includes Carroll, Gallatin, Owen, Trimble, and Henry Counties. We haven't received any federal approval for this grant however the superintendents, along with some legislature feels we need to move forward. The superintendents along with an OVEC representative met with the manufacturer's association for their monthly meeting to discuss with them possibly moving forward even if we don't secure the grant. We understand the need and the importance of moving forward to supply our students with more options that will benefit our communities. I wanted to keep the board up to date with what we are doing at this time and other organizations that we are talking to that will provide support for us to move forward.
- Carroll County Middle School Renovation/Addition project will be discussed later on in the meeting.
- Mr. Hogan and I visited Oldham County Board of Education to discuss leadership academies with their superintendent and assistant superintendent. Over the past five years they have implemented leadership academies across their district and we discussed how they implemented the process. It is not just for administrators

but also for teachers to assist with them growing as teachers and leaders within their buildings. I am sure that we will move forward with that for our district as well.

- Strategic planning, the Expanded Team Meeting will be March 24, 2014 at 5p. Cabinet will be working on it tomorrow and our Core Teams will be working on it next week. We have had to cancel some meetings because of weather but we are beginning to pick back up and move forward.
- Kentucky County Profile and workforce statistics report on information that was released in October was in the newspaper today. Bob Yoder, gathered and compared surrounding counties based on that information. I wanted to share the information that he gathered as well with you. The information in the newspaper, parallels with what the Appalachia schools deal with, and what we face in our school district with poverty. I want the board and community to know that we are aware of the struggles that our students face daily and we strive to be a champion for kids. We have interventions in place for those students, we are still struggling with reading but we are using Lindamood Bell to help assist those students and wrap around services with counselors and social workers, after school and summer programs are there to assist those students that do struggle. We have talked to our teachers about 24/7 hope that discuss caring for students and making a difference in student's lives.
- Summer learning opportunities, we have met several times. We usually have summer learning opportunities during the summer for about 4-6 weeks. We are hoping to have a more outlined plan by March on what we will be able to do this summer.
- Winter Weather Team, Dr. James wants to say Thank You, for all their help and assistance to travel the roads and making sure that we make the right choice, all the maintenance men for cleaning the parking lots. It takes a lot of us to ensure that our students are safe.
- Zach Dean, Kentucky Society for Technology in Education, Zach was recognized by the state for Best Outstanding Supporting Personnel and will be recognized at the formal meeting next Friday. Congratulations for your recognition.

10. Old Business

10.A. Approval of the Revised BG1 for the Carroll County Middle School Renovation

Order #60897 - Motion Passed: Approved the revised BG-1 for the Carroll County Middle School Renovation and Addition Project that reflects an estimate based on the base bid and alternates for the project as presented. Joe Nance discussed with the board that when we have a project for construction, we have the initial BG1, the BG1 when we have estimated costs, and then a BG1 based on construction bids. Mr. Nance discussed how the BG1 is implemented and what all sections mean for the project and how the items are incorporated when bonding. Passed 4-0 with a motion by Mr. Rob Spenneberg and a second by Mrs. Mona Kindoll.

Ms. Carolyn Jones	Yes
Mrs. Mona Kindoll	Yes
Mrs. Drusilla Maiden	Absent
Ms. Mary Ann Pearson	Yes
Mr. Rob Spenneberg	Yes

10.B. Discussion and Action to approve the Revised 2013-2014 School Calendar

Order #60898 - Motion Passed: Mr. Curell discussed the present calendar at this time with the student's last day being on May 30th with professional development days leading into June and June 6th as closing day. We have presently missed 12 days for snow. We have make-up days built into the calendar. At present we have looked at three different ways to make up days, one option is to continue with the approved calendar as is with the make-up days added at the end, the second option would be to utilize the first three days of spring break, and the third option would be to use the whole week of spring break for make-up. We do have two days, one as an early release and the other as a delay which has caused us to go over the five hours that KDE incorporates for schools to use, because we have expended that time we can add five additional minutes onto the day and it will cover that time so that we do not have to incur those days as make-up days for the calendar. Mrs. Kindoll informed the audience that we are not going to decide approving the revised calendar because at this time the board is split 2-2 on the decision, and will be meeting next Monday to decide. Mrs. Kindoll did make a motion to approve the addition of 5 minutes to the day starting March 3, 2014. Passed 4-0 with a motion by Mrs. Mona Kindoll and a second by Ms. Carolyn Jones.

11.C. Discussion and Action KSBIT Litigation

Order #60901 - Motion Passed: Mr. Crawford discussed with the board that there are two motions before them tonight. The first one is to approve hiring an attorney to represent the interests of the districts involved in the Franklin Circuit Courts because KISBIT is bankrupt. Carroll County has issue only in the Worker's Comp fund area however it is at an estimated cost of \$95,000.00 to \$150,000.00 assessment area we will have to pay this back. We had KISBIT starting in 1978, in the 1990's KISBIT landed in the red because it was having to pay out more than it was bringing into the company. In 2009 it was taken over and was insured that it would bring it back into the black. This didn't happen, so all districts that were involved will have to pay the money back. The plan that is the best for Carroll County is paying KISBIT back under KISBIT plan because it will save the district money. It is imperative that we get our position known in the Franklin Courts. We are filing to oppose paying back the \$8 million dollars. A decision was made that we would send one attorney to represent all the districts for this litigation. Discussion and Action: Approved to authorize payment up to \$500 to Attorney Mike Owsley to represent the District's interest in the KSBIT/Kentucky League of Cities

litigation now pending in the Franklin Circuit Court. Passed 4-0 with a motion by Ms. Mary Ann Pearson and a second by Ms. Carolyn Jones.

13. Student Achievement Dr. James asked that the CCHS Showcase move before Item 9 Reports from Principals and Directors. Mr. Stephens welcomed everyone and started off by inviting everyone to come out and enjoy the Drama production of the Wizard of Oz that will be the following weekend. Mr. Stephens also stated that today they have had two groups of visitors to the high school today and both complimented the high school on how clean and nice everything looked which acknowledged the custodial staff and how well they work to make sure that the students have a nice building and our administration and board members for all that they have done for the high school. Two student groups presented. The first group presenting was from the award winning STLP group. The group presented their STLP project which was a 3D application working with computers to work with chemicals that under ordinary circumstances in a high school setting would be too dangerous to have hands on experience. This application allows the virtual ability to understand through text, application, and virtual hands on abilities. The group is also working to develop their own application. The second group to present

was a new class to the high school. It is the US History through filming. The class incorporates US History and puts events throughout US History into their own film productions.
