He discussed the mission statement for the Alternative Learning Center. Explained that the Alternative Learning Center isn't a short term placement. The school works with students at a minimum of six months. Most of the students enjoy the school and environment which leads them to stay at the ALC instead of going back to their school. However if students decide to go back then the ALC works with those students to make sure that each one is prepared to return. Mr. Nelson presented to the board information about the Alternative Learning Center, what they are doing in the facility, the different incentives that are in place for the students, and the E20:20/Edgenuity Online Program. The E20:20/Edgenuity program is working wonderfully at the ALC and it is keeping the students engaged throughout the day. The program also assists the staff with data that allows them to see the progress of each student. The incentives that are in place keeps the atmosphere competitive but it also allows the students to work toward goals for themselves.
